

Today we're gonna take up "Whirly gig," sometimes called the "Buzz saw."

Hook your thumb or middle finger in each end of the string loop and whirl the button around until you have the string wound up. Begin pulling in and out while keeping tension on the string. The spinning button will spin "90 miles an hour."

**CAUTION:** keep out of the long pretty curls and locks of your girl friend's hair; which is what this 1st grader failed to do! Severe punishment followed: 2 whippings, one from the teacher and a leg switching from Mom; plus no more girl friend!
